How to Use Thomas Register

In-depth information in a three part system:

Products & Services

When you need a product or service and want to find out what's available and who can supply it, use Products & Services Volumes 1 - 24.

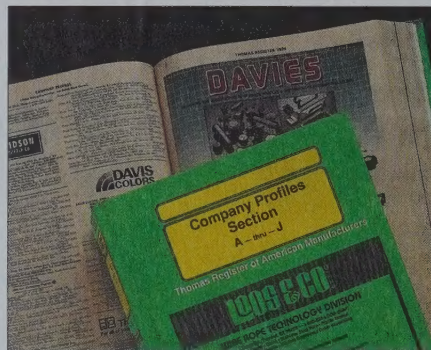

- Here you'll find detailed sourcing information under each of more than 62,500 separate product and service headings.
- Product and service headings are listed alphabetically, using the "modified noun" system. For example, if you're looking for Computer Memories, look under the heading "MEMORIES: COMPUTER"...for Electric Motors, look under "MOTORS: ELECTRIC."
- As a fast alternative to the modified noun system, you can also use the alphabetical Product Index found at the back of Volume 24. Here "Computer Memories" is listed under "C"... and "Electric Motors" is listed under "E". This index will give you the page number where the appropriate "modified noun" product heading begins.
- Once you've found the product or service heading you want, you'll see a list of all known manufacturers or sources listed alphabetically by state and by city within each state.
- Supplementing these listings are informative advertisements with more details about the product, service and supplier. These ads help you make side-by-side comparisons for vendors.
- Look for the reference...

SEE OUR CATALOG IN CATALOG FILE SECTION

This tells you that a company's catalog is available to you *instantly* in the Catalog File Vols. 28-33.

See inside back cover for more details

Company Profiles

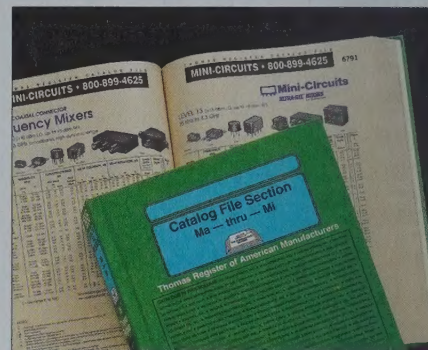

When you want to learn more about a company and how to contact them, use Company Profiles Volumes 25, 26 & 27.

- Here you'll find capabilities and contact information on more than 156,000 U.S. companies.
- Companies are listed alphabetically. Information on them includes: addresses, phone numbers, asset ratings, company executives, and locations of sales offices, distributors, plants, service/engineering offices.
- Many companies also provide a complete profile of their subsidiaries and divisions and entire product lines, with the information you need to determine if they are qualified to serve you.
- The reference
SEE OUR CATALOG IN CATALOG FILE SECTION tells you that company's catalog is available to you *instantly* in the Catalog File Vols. 28 - 33.
- The symbol [Ex.] tells you the company provides export services.
- The symbol [A] indicates an affiliated company. The symbol [S-] indicates a subsidiary. Cable addresses are preceded by [Ca.].

See inside back cover for more details

Catalog File

When you need detailed product information ... specifications, drawings, photos, availability and performance data, use the Catalog File Volumes 28 - 33.

- In these seven volumes you'll find over 10,000 pages of catalog data from more than 2,000 companies.
- The catalogs are arranged alphabetically by company name and fully cross-referenced within both Products & Services and Company Profiles.
- Whenever you see this reference in a company's advertising...

SEE OUR CATALOG IN CATALOG FILE SECTION

you'll know that you don't have to call or write for their catalog. You already have their catalog at your fingertips in Thomas Register.

Use the Catalog File:

1. Whenever you need an up-to-date catalog from a current supplier.
2. Whenever you need an up-to-date catalog from a prospective supplier you already know by name.
3. Whenever you're discussing your specific requirements by phone with a company whose catalog is in Thomas Register.
4. Whenever you're researching the general availability of various subsystems and components.
5. You'll also find the Catalog File a storehouse of ideas for your own product development.

See inside back cover for more details

Product Index included in Volume 24... Check the Product Index (printed on pink paper at the back of Volume 24) for the volume and page number of each product heading.

Trademarks and Brand Names Index included in Volume 24... When you know only the brand name, look it up in the Trademarks and Brand Names Index (printed on yellow paper at the back of Volume 24). You'll find the name of the owner company.

When you want to know the tangible asset ratings...

The rating code following each company name indicates our estimate of approximate minimum total tangible assets as follows:

250M +over \$250,000,000
100M +over \$100,000,000
50M +over \$ 50,000,000
25M +over \$ 25,000,000

10M +over \$10,000,000
5M +over \$ 5,000,000
1M +over \$ 1,000,000
1M -under \$ 1,000,000

There's A New Force In The Industry.

FCI and Berg have made the connection.

FCI's recent acquisition of Berg Electronics makes us the second largest connector company in the world.

Second in size, maybe, but first in standard and custom connectors to meet the needs of today's most demanding applications.

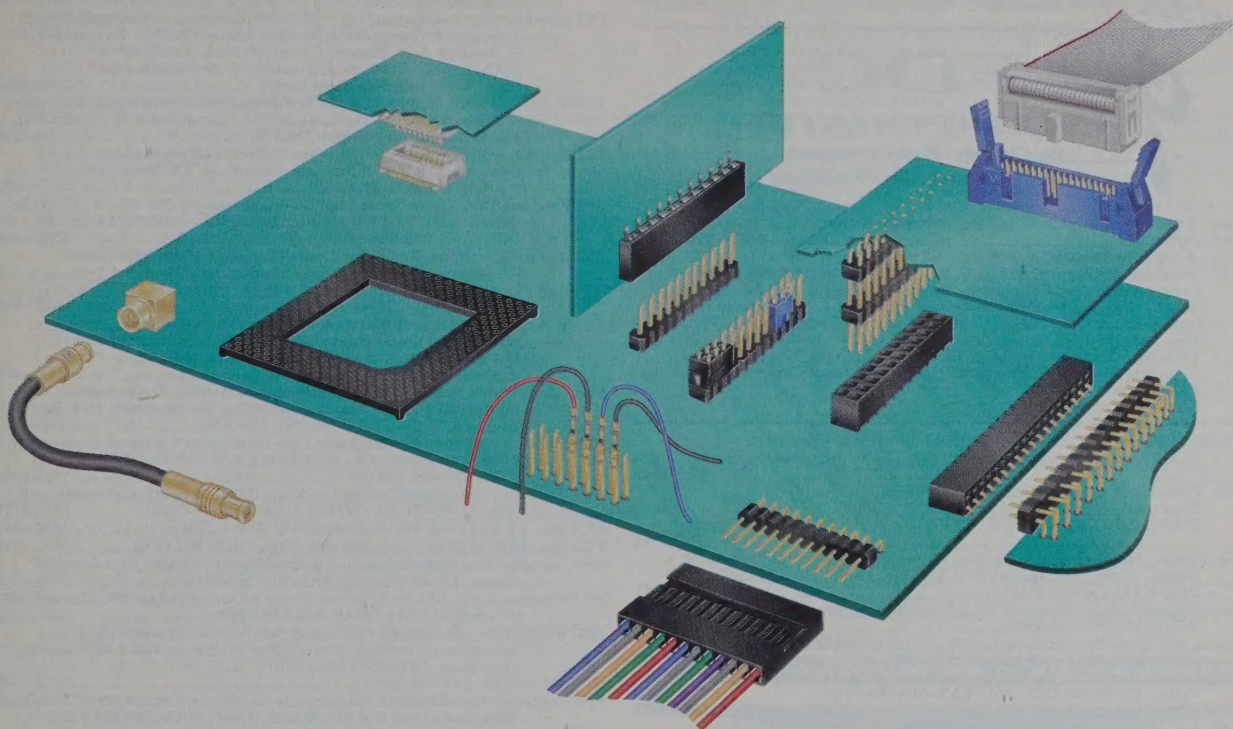

If you are currently using another connector company, maybe you should give it a second thought.

FCI connects the world

FIRE RETARDANT SOLUTIONS.

IN SPECIFICATION, ON TIME.

FRC PyroTech manufactures and distributes fire retardant chemicals and related products throughout the world. FRC PyroTech is a supplier of fire retardants for a variety of applications including paper, textiles, upholstery, synthetic felts, automotive, plastics, wood, building materials and fire retardant packaging. FRC Pyrotech products meet many U.S. Military, ASTM, NFPA, FAA and UL Standards.

While FRC PyroTech owns and markets a product line of flame retardant chemicals and formulations, it is the adaptation of these fire retardant systems to the specifications of original equipment manufacturers that distinguishes the company.

For an introduction to our most popular products, and to learn how you can receive immediate product literature by

FAX, refer to the catalogue section in the Thomas Register.

FTB. & Son Inc. is a supplier of large and small electronic enclosures, custom built to our customer's specifications. Along with the enclosures, we fabricate many of the associated parts that go with them (i.e., control panels, outer panels, various chassis and brackets), as well as in-house machining and assembly of components to various stages of completion. We also have available to us a dedicated powder coater and plater, most of whom work with us assuring that we receive the best possible turn around (most cases in 24 hrs or less). With this, FTB. & Son Inc. can conform to the strict standards set by JIT.

Available to you is a complete engineering staff, willing to work with our customers in the event our expertise is required. We offer you a combined work experience of over 100 yrs. among three key people on our staff. Basically, that means we have seen almost every way possible to fabricate any given item. We are continually learning every day and that is what keeps us from becoming a "Cave Man" in the sheet metal industry.

▲ SEE OUR CATALOG IN CATALOG FILE SECTION

*F*ounded in 1952, **Fablok Mills** is a mesh manufacturer that provides sales, customer service knitting, dyeing and finishing, from one location. Our fully-integrated production facility gives Fablok the control and flexibility necessary to satisfy our customer's needs. We are recognized by customers as a preferred supplier because of our ability to fulfill orders within a two week time frame.

Industrial Markets include:

- Aqua Culture
- Medical
- Sports
- Geo-textiles
- Transportation
- Juvenile
- Luggage
- Bags
- Filtration
- Tents
- Substrates
- Scouring
- High Visibility/Safety
- Military & Government Business

Product Designers are discovering many unusual uses for **FABLOK Knitted Non-Raveling Netting:**

Helicopter Seating • Net Bags for Dyeing & Liquid Processing Safety Nets • Baggage Slings • Filtering Fabrics Cap Mesh & Other Apparel Applications • Toys & Games • Etc.

These flexible **NET FABRICS** can be finished with any desired degree of permanent stiffening or resilience. Why not look into the possibilities in your present Products, New Ideas or Military Specifications?

140 Spring Street Murray Hill, NJ 07974

MANUFACTURING SPECIALISTS OF FABRIC GOODS AND O.E.M. STRAPS

ONE SOURCE FOR...

- Custom Design
- Engineering
- Technically Oriented Fabric Goods
- Strap Fabrication
- Testing
- On-Time Deliveries
- Total Customer Satisfaction

We will provide the solution to your industrial fabric needs. Give us a chal-
lenge; supply your design criteria; we will put our experienced staff to work
to produce a PERFECT SOLUTION! Our combination of many choices of
webbing and hardware enables our staff to provide immediate solutions to
your "Original Equipment Manufacturing" needs.

Faith Tool & Die Company, Inc.

Your Single Source for Complex Engineering of Large Precision Metal Stamping & Tool Building

Your Partner for Quality Solutions

Faith Tool & Die specializes in producing high tolerance metal stampings. We manufacture parts for a growing list of the world's top manufacturers, including some of the best known names in the consumer electronics and computer industries. Faith Tool & Die offers more than a product, we offer an entire quality system. Our strengths are best utilized on projects that others find too difficult. Being a vertically integrated company allows us to monitor and ensure the quality of a project from concept to reality.

Producing Excellence

At Faith Tool & Die, we put a great deal of emphasis on training our own personnel. In fact, we provide training in several disciplines. High tolerance stampings are maintained by an arsenal of inspection tools, specialized gauges, SPC and detailed process specifications. In today's very competitive global market, we believe just meeting a customer's specifications is not enough. That's why we strive to exceed those expectations on each and every project.

Exceeding Expectations

Our team of Tool & Die Makers, Engineers, Machinist and other Production Personnel are highly skilled, experienced, motivated and thoroughly trained. Utilizing a full complement of specialized precision, milling, machining, metal stamping and finishing equipment helps ensure that our customer's specifications are maintained.

FARNAM
 CUSTOM
 PRODUCTS

Designers and Manufacturers of Quality Custom Heating Elements and Electrical Assemblies.

FARNAM works with original equipment manufacturers in developing practical, reliable and cost effective solutions to heating requirements. We do trouble shooting for companies whose existing product does not fully meet their expectations. FARNAM also has the capability to upgrade the effectiveness of a product's heating system, and we are often consulted for cost reducing designs for existing products.

Fastener Dimensions, Inc. is a manufacturer and distributor of screws, nuts and bolts, aircraft, aerospace and military components and specials to print. We adhere to MIL-I-45208 inspection standards. Most of our vast inventory, (over 2 million line items) are certified and fully traceable. We stock and distribute ATR 42/72, AIRBUS A300/310/320/330/340, AGUSTA, GE, BELL, CESSNA, PIPER, SIKORSKY, BOEING, LOCKHEED and DOUGLAS, also a complete line of hardware, connectors, switches, relays, air frame and engine spares.

We maintain a large inventory of headed-blank products in all head configurations, plus a dedicated shortrun manufacturing cell enables FASTENER DIMENSIONS, INC. to offer faster delivery and reduced cost in support of critical standard and special bolt and screw requirements for production line and/or AOG shortages. We also have custom light machining and assembly capabilities. We are a U.S. Government approved, certified source for safety and flight critical applications. Fastener Dimensions, Inc. is accredited by the Underwriters Laboratories UL to ISO 9002 standards.

Setting The Quality Standard For Casters Since 1891.

OFFERING MOBILITY SOLUTIONS FOR OVER 100 YEARS AND WELL INTO THE NEXT MILLENNIUM

Faultless Casters are rolling into the 21st century with over 10,000 high performance caster/wheel combinations.

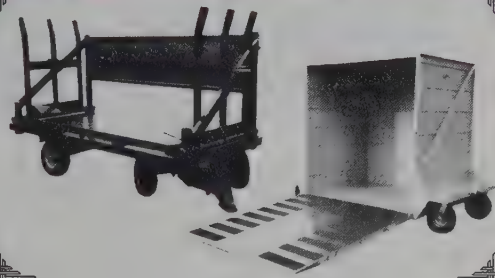

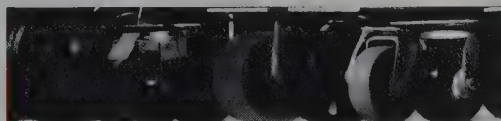

Faultless Caster is your single source for non-powered mobility solutions. Faultless' casters serve a large variety of applications in industrial and institutional to commercial, furniture and P.O.P. markets to name a few. Caster load ratings range from 40 pounds to 17,000 pound capacities in our standard product offering. Faultless' expertise and innovation has served their customers for well over 100 years.

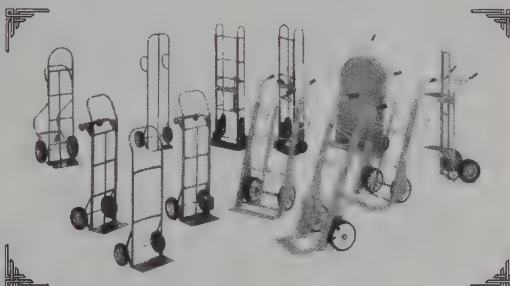

Faultless manufactures its products to exacting engineering standards and constantly strives to improve performance. Their Pro Engineering software has proven to reduce design time, costs, time required to create a working prototype and time to market.

Faultless and Faultless-Nutting products are sold by over 400 stocking distributors supported by full-line distribution centers in the east, west, midwest and southeast. Factory representatives maintain territories for support and involvement of mobility solutions for our customers.

Faultless-Nutting offers expertise and answers to standard and custom non-powered material handling equipment and trailer applications. No job is too small or too large for a Faultless-Nutting solution.

In addition to Faultless-Nutting's array of custom carts and trailers, they manufacture a wide variety of non-powered material handling products. These products combined with caster orders provide opportunities for vendor consolidation and quick response, hence a single source.

400 Main Street, Ashland, MA 01721 • PHONE: 881-2000 FAX: 508 881-6729

1-800-571-2287

Keeping engineers in control since 1935.

Complete Line of Industrial Temperature Controls

■ Temperature Controls

THERMOSWITCH®

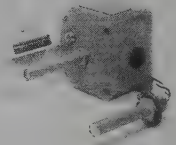

Reliability and close control at low cost

■ Heat Detection & Alarm

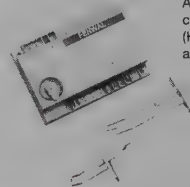

DETECT-A-FIRE®

The number 1 rate-compensating heat detector, Intrinsically Safe and Explosion Proof junction boxes available

■ Gas Ignition

TRITON® SERIES

Automatic, microprocessor based and analog controls for Direct Spark (DSI) or Hot Surface (HSI) gas ignition, plus electrode assemblies and accessories for gas fired systems

**European Approvals
ISO 9001 Certified**

Kiln Furniture

With more than 50 years of experience, Ferro offers a complete line of kiln furniture for the dinnerware, tile, sanitaryware, electrical porcelain, brick and clay, commercial cooking, ferrite, MOV and artware industries.

- Tile
- Posts
- Balls
- Girders
- Slabs
- Racks
- Compacts
- Duplex Tile
- Setters
- Post & Cap
- Saggars
- Car Top Systems

New Lightweight Furniture

Manufactured from recrystallized silicon carbide, Rx21 is engineered for superior strength at extremely high temperature. Its unique properties also enable it to withstand long soak periods without slumping... and since Rx21 is thinner than traditional kiln furniture, a higher ratio of your product will fit on each kiln car.

Ferro

can bring your
ceramic ideas
to reality.

World-class ceramic materials

The Ferro North American Ceramic Division manufactures and markets frit, glaze and ceramic color, grinding media and mill linings, kiln furniture systems, wear-resistant ceramic solutions and advanced structural components.

Markets served

Major industries served include ceramics, brick & clay, electrical/electronics, aerospace, automotive, chemicals, minerals, coal power, steel and various instrumentation and equipment manufacturers.

Our mission

Ferro Corporation's mission as a business is to be a leading provider within our three core businesses of value-added, high-performance specialty materials, engineered products and services for customers worldwide.

FiberMark

A leading, innovative manufacturer and converter of specialty fiber-based materials serving a wide range of industrial and consumer needs worldwide.

Key products (typical finished products made by customers are noted in parentheses):

- **Filter media for air, oil, fuel, hydraulics, water and food processing 804-775-3200**
(saturated and non-saturated filters for the automotive and heavy equipment industry, vacuum bags, fast food and beverage processing, paints and lacquers and industrial applications)
- **Specialty tapes, tape substrates, and labels 215-536-4600**
(masking, autoclave, edge binding, and bandoliering tapes, imitation leather for jean labels)
- **Book cover and abrasive substrates 978-345-2161**
(latex-saturated materials for book covers, and abrasive backing papers for sandpaper)
- **Archival and graphic arts materials 978-345-2161** (Hi-pH materials for acid-free matboard, mounting board and document storage)
- **Transformer paper and printed circuit board substrates 978-345-2161** (remote control devices, electrical transformers)
- **Cover materials for office and school supplies 800-521-3074** (ring binders, portfolios, planners, report and notebook covers, file folders)
- **Premium lightweight cover materials for printing and presentation 800-521-3074**
(reports and printed promotional/advertising materials)

FiberMark brings more than 100 years of manufacturing experience and employs 1,500 people in ten manufacturing facilities in the U.S. and Europe, and in five international sales offices. The company focuses on niche markets that employ specialty fiber expertise and provides market-oriented product development and service programs.

FIL-CLEAN CORPORATION
 (FILTRATION) Cleaning Specialists

TECHNICAL CLEANING SERVICES
 on a variety of process components
 in the Polymer, Chemical, Film, Fiber
 and other industries.

- Polymer Removal
- Reusable Filler Elements
 All Styles and Alloys
- Production Hardware
 Die Plates Screen Packs
 Spinnettes Etc.
- Vessels and Tube Sheets

We provide Responsive, Effective, Consistent
 service, utilizing
ENVIRONMENTALLY RESPONSIBLE methods.

PISTON FILLERS

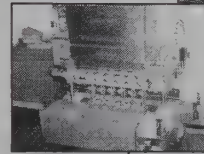

We are the original
 manufacturers of GEYER
 piston-type filling machinery.
 Since 1914 we have
 manufactured machines
 to fill a wide variety of liquid
 and viscous products in the
 food, cosmetic, chemical
 and pharmaceutical
 industries. Geyer fillers
 are custom engineered to
 your specific requirements
 and are available from table
 top units to high speed fully
 automatic machines.

If you can imagine it, we've got an air spring for it.

Air springs are the alternative to conventional springs and hydraulic or pneumatic cylinders. And Firestone Industrial Products Company designs and builds air springs for more applications than any other company in the world.

Firestone Air Spring Advantages.

- Low initial cost
- No maintenance or lubrication
- Long service life
- No breakaway friction
- Perform in harsh environments
- No internal parts to break
- High cycle rates
- Facilitate non-linear movements
- Handle forces up to 100,000 lbs.
- Easily conform to side and offset loads

World's #1 alternative to conventional air and hydraulic cylinders.

Whatever your needs for isolators, actuators, spring devices, as well as vehicular suspension, Firestone has an air spring to meet your requirements precisely. Our engineers will work closely with you to help engineer solutions for your unique applications.

Find out more.

For design and applications engineering assistance, contact a Firestone sales engineer.

Firestone Polymers is a global supplier of polymeric materials to the rubber, plastics, adhesive and asphalt markets.

- ◆ Impact Modifiers for Plastic
- ◆ Polymers for Rubber Applications
- ◆ Polymers for Asphalt Modification
- ◆ Polymers for Hot Melt Adhesive
- ◆ Natural Latex for Dipping and Water-Based Applications.

- ◆ Solution Polybutadiene Rubbers (SBR)

- ◆ Block Copolymers

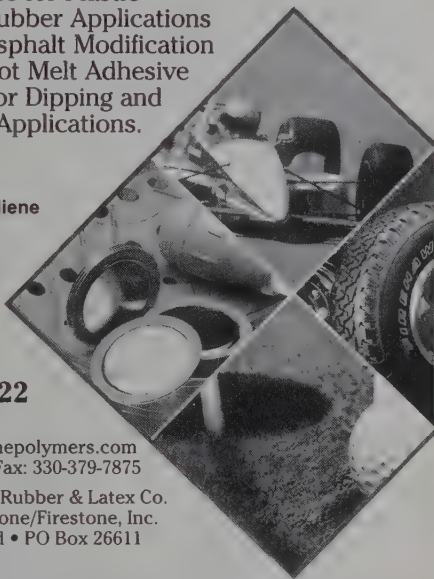

- ◆ Polybutadiene

- ◆ Natural Latex

LABORATORY FURNITURE

VERSATILE FURNITURE SOLUTIONS FOR TODAY'S LABORATORY ENVIRONMENT

Over the last hundred years Fisher Hamilton built a reputation for excellence through pioneering in the development of laboratory furniture systems and fume hoods of the highest quality for the industrial, college/university, K-12 and healthcare markets.

- Largest Laboratory Furniture Manufacturer
- Broadest Product Offering
- Research and Development Leader
- Project Planning and Management Support
- Multi-market Expertise with Single Source Convenience

RED DRAGON TORCHES AND EQUIPMENT

Flame Engineering: In Business Over 40 Years!

As the leading manufacturer of flaming equipment, we offer a complete line of over 100 products:

- Hand-held Torches
- Flame Throwers
- Engine Preheaters
- Roofing Torches and Equipment
- Construction Heaters
- Patio Lites®
- Patio Woks®
- Weed Dragon® Torches
- Row Crop Flamers
- Alfalfa Flamer
- Berm & Orchard Flamers
- Cylinder Dollies
- Ergonomic Work Benches
- Eternal Flames
- Hitches
- Complete Parts & Accessories
- Much More!

**17 Torch Kits CSA Certified
For U.S. & Canada!**

Need customized burners or flaming equipment?

We Can Help!

(Ex.) (Pres.) George Hainsworth; (V.P. Production) Mike Riddel

Our Capabilities: Flare Industries Inc. has the capability to provide complete engineering, design, fabrication, installation and financing for Flares and Incineration Systems throughout the World. We are available 24 hr. a day to offer high quality, cost effective, on time solutions for all your Flare or Combustion requirements.

Our Products and Services:

- Utility Flares
- Steam Flares
- Air Flares
- Sonic Flares
- Pit and Multi Point Flares
- Ignition Systems and Pilots
- Consulting
- Enclosed Flares
- Truck And Barge Flares
- Offshore Booms and Tips
- Fume Incineration
- Liquid Seal Drums
- Turnkey Installations
- Emissions Analysis

World Wide Coverage: Contact our head office for names and addresses of our Representatives in Mexico, Argentina, Venezuela, Brazil, Middle East, Singapore, Korea, Taiwan, Peking, Hong Kong, Western Europe and Most USA locations.

Flex Products

INNOVATIVE AND CUSTOMIZED PLASTIC PACKAGING

A picture (of your product) is not worth a thousand words, seeing it live is...in crystal clear packaging. Your product in Flex packaging will sell faster and easier when customers can see your product clearly, as it actually is. Flex Products has over 400 shapes and sizes and can custom design any size clear package to fit your product. Our cellulose containers are strong, semi-rigid, seamless, lightweight and shatterproof. They're available in rounds, squares, rectangles and triangles. We can cut to almost any length from 1" to 174" and more, and with diameters as small as 3/16" to 3". We offer 4-color offset printing with color coordinated closures in a variety of styles. Let us help you package your product for better sales. It's clear and simple, just call 1-800-526-6273.

Remember, if you want to sell it, FLEX-it!

640 Dell Road, Carlstadt, NJ 07072

Many Available In Stainless Steel & Delrin. Serving The Aerospace, Defense, Automotive, Machine Tool, Medical, Electronic, Chemical, Food & Miscellaneous Industries)
(Pres.) D. Koch
▲ SEE OUR CATALOG IN CATALOG FILE SECTION

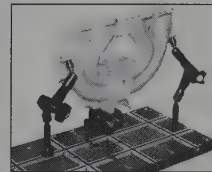

AGILE FIXTURING PUTS YOU IN CONTROL

- Modular fixturing for machining, metrology and welding.
- Hard metric standard parts, drill bushings, punches, dies, & toggle clamps.

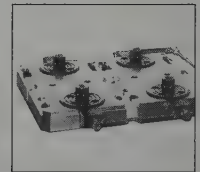

Serving automotive & aerospace industries globally.

For machining -
4 1/2 hour setup

For metrology -
50 min. setup

Zero point clamping
(docking) station

SLASH COSTS

- Labor reduced from weeks to hours.
- Fixture storage rooms reduced to component cabinets.
- Design time essentially eliminated.

GET COMPETITIVE

- Lead time no bidding factor. 2 to 6 hour build time.
- React immediately to design changes
- Bring products to market faster.
- Order-as-needed demands -No Problem.

NO COMPROMISES

- Component system designed to dedicated fixture standards.

Bulk solids handling equipment & systems

Flexicon manufactures a broad range of reliable high performance equipment to move both free- and non-free-flowing powder and bulk solid materials, from large pellets to sub-micron powders:

- Flexible screw conveyors
- Multiple delivery systems
- Bulk bag dischargers
- Bulk bag fillers
- Weigh batching and blending systems
- Manual dumping stations
- Drum dumpers
- Standard and custom equipment including automated plant-wide systems
- Industrial and sanitary construction

FLEXSYS

Call Toll-Free
1-888-406-3359

Flexsys is the leading global supplier of chemicals to the rubber industry, with more than 20 sites around the world employing more than 1,500 people. It also has the industry's broadest product portfolio of rubber chemicals available to serve tire and industrial product customers worldwide.

Flexsys was launched in 1995 as a 50/50 joint venture of Akzo Nobel NV and Monsanto Company, (now Solutia), embracing the worldwide rubber chemical businesses of both parents. It has its world headquarters in Brussels (Belgium) with regional offices in Akron (Ohio, USA) and Singapore.

For more information on Flexsys, visit the company's home page on the World Wide Web at <http://www.flexsys.com>.

FLEXOSPAN

We pride ourselves on the flexibility of our company. Large enough to handle projects of great scope, we still maintain the desire and capability to produce materials for day-to-day construction jobs, as we have since 1969.

With over 100,000 square feet under roof, and twenty-five rollformers in-house, FLEXOSPAN has continued in its endeavor to supply the ever expanding metal construction industry with a complete line of metal building components.

Your satisfaction as a valued customer is our goal. From quotation to delivery, our emphasis is service. Our location at the crossroads of interstate highways, our vast coil inventory, and our superior quality assurance enable us to satisfy your needs for excellent products at reasonable prices.

FLEXOSPAN's sales, estimating, engineering, and production departments await the chance to serve you. Our years of service in the industry, and our desire for excellence make us ready to provide you with the product you need.

Flextron

Industries Incorporated
Innovative Packaging Solutions
Since 1960

Flextron-- long known for quality rubberized hair packaging material -- has also become, over the past 30 years, a major supplier of metal fabrications and plastic parts. Flextron facilities encompass 45,000 square feet and include state-of-the-art equipment to produce high-quality, rigid and flexible urethanes, fabricated polyurethanes, weldments and complete assemblies of your design or ours. Our reputation is based on quality materials and workmanship, ontime delivery and competitive pricing. Our thorough knowledge of military specifications, our experienced personnel and our specialized equipment are the foundation our organization is built on. The capability of working with metal or plastic and a combination of both is an extra dimension from Flextron. The blending of knowledge, experience and equipment applied to your job makes the Flextron difference.

Flextron is a major supplier of product packaging to many industries, such as Aerospace, Automotive, Computer, Helicopter, Medical, Pharmaceutical, Shipbuilding, and the Military.

Flowserve Flow Solutions Division

Your **single source** for high performance mechanical seals, repair/rebuilding and educational services

The Flowserve Flow Solutions Division supplies the depth of application experience and advanced product development that you need to lower your total sealing costs, increase rotating equipment reliability and achieve greater profitability. By combining our mechanical seal businesses with service/repair operations and our industry-leading educational services program, we now offer you truly integrated, world-class products, and support services including:

Innovative sealing products for pumps and other rotating equipment

Flow Solutions Division offers a complete line of seals and related equipment for ANSI/API pumps, mixers, compressors, steam turbines and other rotary-motion equipment commonly found in chemical process, pulp and paper, petrochemical, and power generation industries. Designs are available for most shaft sizes, speeds, temperatures, pressures and services. Some of our more popular sealing products include:

- **Cartridge seals**—Self contained configurations designed to provide quick and easy installation.
- **Technically advanced gas barrier seals**—For pumps, compressors, steam turbines, and other rotating equipment.
- **Mixer seals**—Wet or dry running seals for applications requiring a high degree of radial deflection. Shaft sizes up to 12" and split seals available.
- **Elastomer bellows seals**—Standard and custom designs to ANSI and DIN requirements.

Repair, rebuilding, and educational services unmatched in the industry...

- **The Flow Solutions Division Service Group** restores your plant's pumps, valves, and seals to original quality, at performance levels equal to or better than originally achieved. Under a global network, certified technicians provide 24-hour service around the world.
- **Flowserve Educational Services** provides a wide range of technical and maintenance courses designed to increase the understanding of flow management systems and equipment for plant engineering, maintenance and operating staff. Offered either on-site or at our state-of-the-art Learning Resource Center in Dallas, Texas, these programs offer "real world" solutions for increasing rotating equipment reliability.

In-line flow metering at its best!

FLOWDATA's innovative in-line flow metering results from an unique but simple design. Our positive displacement flowmeters have only two moving parts. The engineered wear-resistant impellers, a patented design, eliminate the need for bearings, dynamic seals, rotating shafts, and timing gears.

The revolutionary new dual-rotor turbine flowmeter design eliminates costly flow straighteners. It is guaranteed to provide FIVE times better usable range and/or turndown ratios than any existing turbine flowmeter. The performance, ruggedness and accuracy are far superior to single rotor designs.

NEW! Patented
Dual Rotor Design

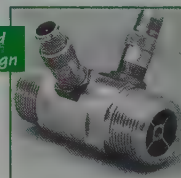

Total performance

For the best value over the life of the flowmeter, look to Flowdata. You get the benefits of our "total performance" that include:

- Lowest total cost of ownership
- 2 year warranty
- Widest range of fluid applications
- NIST traceable calibrations
- Voted #1 in customer service in an independent survey

Perfect match for your applications

- Process/General Industrial
- Food/Sanitary
- Corrosive/Ultra-Pure Applications
- High Pressure-Low Flow and Low Viscosity

FLU

Manufacturers of Thermal Flow, Liquid Level and Temperature Sensing Instrumentation.

FCI's headquarters houses a state-of-the-art instrument test and calibration laboratory. Utilizing advanced, computerized data acquisition and calibration test equipment, this facility permits comprehensive product development and on-site testing.

All of FCI products are backed by Fluid Components Intl's exclusive Instrument User's Protection Plan: Product

FCI offers an extensive line of thermal flow, level and temperature measurement and control instrumentation. Since 1964, FCI has provided solutions to application problems ranging from automated oil well flow/no flow indication to digester gas flow measurement to oil/gas/air interface detection to custom aerospace and nuclear power systems.

Warranty, Performance Guaranteed and prompt, 24-hour customer service.

For solutions to your flow, level and temperature sensing application problems, call Fluid Components Intl at 1-800-473-3980.

See our catalog in Thomas Register.

Fluoro-Seal™ Fluorination – Barrier and Surface Enhancement for Plastics

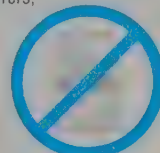

Fluorination of Bottles, Drums, Plastic Spill Pallets,
Intermediate Bulk Containers, Molded and Fabricated Parts

Stops Container Paneling and Distortion
Reduces Chemical Permeation For Many Products Up To 1000 Times

FLUORO-SEAL, INC. treats plastic items such as bottles, drums, pallets,
tanks, containers, geomembrane liners, intermediate bulk containers (IBCs)
and molded and fabricated parts for plastic manufacturers,
marketers and contract packagers around the world.

The Fluoro-Seal Process is a post-manufacture,
fluorination process, whereby conditions of fluorine
concentration, temperature, pressure and exposure
time are introduced to plastic products in a strictly-
controlled, custom-designed, environmentally-safe
application system.

The Fluoro-Seal Process can eliminate
problems normally associated with the chemical attack of polyolefins.

ISO 9002 CERTIFIED

FluorO Kote #1® Fastener

*Holding the World
of High Pressure
Piping Together.™*

- EASY INSTALLATION
- EASY REMOVAL
- LOW COEFFICIENT OF FRICTION
- EVEN TORQUEING
- CORROSION RESISTANCE
Nuts not frozen after 4000 hours in salt spray test
- SAFETY
Bolts can be easily disassembled with wrenches instead of cutting torches

A proprietary under coating system with a fluoropolymer top coat. The fluoropolymer imparts a low coefficient of friction that reduces the torque requirement during make-up. The under coating and top coat provide superior corrosion resistance.

Engineered Service & Quality For The Molded & Fabricated Foam Industries

Foam Fabricators began in 1957 as a single plant molding a very new material—expanded polystyrene (EPS)—into ice chests and sun toys. Today, we are a coast-to-coast network of state-of-the-art molding and fabricating plants that provide a variety of industries with economical and efficient shape molded and fabricated foam products, packaging and components.

High Volume Producer Of Holographic Materials For The Packaging Industry. Wide Web Films, Papers, Board Stocks, Labels. A Variety Of Anti-Counterfeit & Anti-Diversion Security Marking Systems. Pad Transfer Printers & Semi-Automatic Screen Printing Machines. Supply Items For Pad Printers & Hot Stampers: Pads, Plates, Doctor Blades, Plate Making Systems, Closed Cup Systems, Inks, Solvents, Dies)

PAD PRINTING SYSTEMS

Modular and Flexible

IMTRAN's modular systems approach enables you to build a custom system from standard components. Our unique "Umbilical Cord" approach and plug-in wiring provides the programming link to printing heads, indexers, and parts handling systems.

Our Supplies include:

- Plate Making Systems and Inks
- Printing Plates, Pads, and Screens
- Doctor Blades and Squeegees

We also provide:

- Open or Closed Ink Systems
- Automatic Cycle Mode
- Set-Up Mode and Cycle Counter
- Complete Pneumatic Drive
- Ink Mix Cycle
- Anodized Aluminum Components

We also have a Technical Services Department that can help you train your staff to produce better results.
Call us at 1-800-468-7826

SERVING THE NEEDS OF THE FOLLOWING INDUSTRIES

**AUTOMOTIVE • AGRICULTURE • MILITARY • TEXTILE
MACHINERY • LAWN & GARDEN • MARINE
TRANSPORTATION • RECREATION • ADVERTISING**

- CAD-CUSTOM DESIGN
- TWIN SHEET FORMING
- LENGTHS UP TO 16 FEET
- THICKNESS UP TO .500
- 5-AXIS CNC ROBOTIC TRIMMING
- DIE-CUTTING

PRODUCTS

- Returnable Packaging Systems
- Sub-Assemblies • Enclosures
- Pallets • Trays • Targets • Covers
- Tote Boxes • Containers
- Advertising Displays
- OEM Engineered Products

MATERIALS (PARTIAL)

- ABS • Polypropylene • HIPS
- Polycarbonate • Flexible Vinyl
- PETG • Polyethylene
- Non-Slip Surfaces Available
- Engineered Resins

FORMDRILL® PERFECTION IN THERMAL DRILLING

A low cost alternative
to threaded inserts
or weld nuts.

FORMDRILL® THERMAL DRILLS

utilize standard drilling equipment to form a bushing out of the parent material. This chipless process takes only seconds, and can be used on all ferrous and non-ferrous materials up to 1/2" in thickness, and hole sizes up to 1".

formdrill®

Isolast® Perfluoroelastomer Solutions and The Specialist in Engineered Diaphragm.

Our key strengths lie in our:

Quality Product: Isolast® Perfluoroelastomer O-Rings, Gaskets and Special Geometries
Fabric-Reinforced and Homogeneous Diaphragms
Organic and Inorganic Engineered Seals

Technology: Applications Focused Design and Materials Technology
Non-Linear Finite Element Analysis
On-Site Tool Machining Center for Quick Prototyping
Metal-To-Elastomer and Plastic-To-Elastomer Bonding
Advanced Barrier Technology
Superior Fabric-Forming Technology
Standard and Special Organic and Inorganic Elastomer Formulations

Processes: State-of-the-Art Manufacturing Facility
Isolast® Cleanroom Facility
ISO 9001, QS 9000, AS 9000 Accreditations

Service: Value-Added Applications Engineering
Quick Prototyping
24 hour Hot-Line for Isolast® O-Rings
24-48 hour delivery for Isolast® O-Rings

Stability: As Part of the Forsheda Team and the TI Group We Are Here to Stay!
For innovative, timely, and value-added sealing solutions, call:

W. Branstrator; (Oper. Mgr.) Tom Poiry; (Plt. Mgr.) H. Rollings; (Qual. Mgr.) Tammy Tuttle; (Off. Mgr.) K. Richardson

FORT WAYNE ANODIZING

Pure protection of all your aluminum products

Fort Wayne Anodizing has over 30 years of proven performance in the industrial aluminum anodizing business.

Fort Wayne Anodizing specializes in 4 powerful processes:

HARD COAT ANODIZING

- Fully-Automated 75-Foot Industrial Hard Coat Line Handles High Volumes with Greater Efficiency, Accuracy and Repeatability
- Separate Computerized Anodizing Tanks Speed Up Productivity by Processing Different Jobs at the Same Time
- PTFE (Teflon® Sealed) Hard Coat Anodizing

CONVENTIONAL ANODIZING

- Sulfuric Acid Anodizing

CASTING IMPREGNATION

- Vacuum and Vacuum Pressure

CHROMATE CONVERSION

From the smallest jobs to the most complex, Fort Wayne Anodizing keeps you covered.

- Cost Effective • Anodizing Conforming to Military Specifications
- Fast Turnaround Time • Superior Production Techniques
- Colors • 24-Foot Anodizing and Chromate Conversion Tanks
- Complete Backup System • We Will Run a Sample Part FREE!

Quality Since 1917

Fostoria Industries, Inc. has been serving industry since 1917. We are proud to provide high value industrial grade products, built with the quality and care needed to last.

Process Heat designs, engineers and manufactures infrared oven systems for: laminating, curing, baking, bonding, drying, cooking, pre or post-heat-ing and thermoforming. We have developed systems for a wide range of industrial applications from powder coating to computer chips.

Pro-Metal sheet metal stamping, forming, finishing and fabrication. Metal spinning. Custom JIT. Short,

medium or long run production through a Finn Power Shear Genius.

Comfort Heat and Task Lighting design and manufacturing of a variety of products for use in industry and construction trades. We have a complete line of heating and lighting products that cover many applica-tions. Heating for: snow & ice control, zone or total area heating, hazardous location heating, cabinet unit heaters and portable electric heaters. Lighting for: machining centers, machine tools, loading docks, and portable lights for construction and maintenance crews.

YOUR ONE STOP SOURCE FOR BRUSHES & CHEMICALS

CUSTOM BRUSH

A complete line of special brush designs, sizes, fill materials & configurations for specific brush applications:

- Conveyor Belt Cleaning Brushes
- Food Processing Brushes
- Cylinder Brushes
- Printing Brushes
- Containment Seals
- Door Seals
- Industrial Brushes
- Custom Made to Your Specifications

CONTRACT MANUFACTURING

Private label and original equipment manufacturing.

- Injection molding
- Blow molding
- Decorating & Assembly
- Steel Handles
- Mops
- Brushes
- Chemicals
- Aerosols

Our modern 500,000 sq. ft. manufacturing facility is supported by national distribution. Our engineering and design staff is one of the most experienced in the industry to provide a broad range of brush designs customized to meet your special equipment requirements. Chemical Laboratory, Compounding and R&D facilities available.

Fuller Company is a leader in cement manufacturing technology, with total capability and in-house expertise in virtually all process areas of a cement manufacturing facility.

Your single-source supplier for cost-effective solutions, Fuller offers a vast network of global resources, providing customers with the highest level of quality and service.

WORLD-CLASS TECHNOLOGY.

- the most comprehensive line of products, equipment and services
- extensive engineering capabilities and technologies
- start-up and on-site technical assistance
- field engineering services for installation and repair
- design modifications to incorporate burning waste fuel materials
- increased efficiency, decreased energy consumption

For complete capabilities and customer satisfaction, call Fuller toll free

 Or Call: 440-946-3300)
 (Automation For Brazing & Soldering; Brazing & Soldering Alloys In Paste Form, Tin/Lead, Silver, Phos/Copper, Aluminium, Nickel, Gold Formulation, Cadmium-Free Types; Automatic Machines For Production; Rotary Index Types To Convey Fixed Assemblies Through Paste Application, Heating & Cooling Steps, Single Operator From 50 to 2000 Parts/Hour; Paste Dispensers; Dispensable Fluxes; Post-Braze Cleaners; Sample Parts Processing; Feasibility Testing)
 (S-Precision Detroit Co., Inc.)
 (Ex.) (Pres.) G.N. Williams; (V.P.) B.R. Williams; (EDI) Leo Fohl; (Metric) Dominic Petruccio

Fusion Inc. (Rebuilding Of Industrial Crankshafts, Industrial Coatings, Machine Shop), 6911-T Fulton, Houston, TX 77022 (Ex.) (1M+) (FAX: 713-691-1903).....713-691-6547

Fusion Semiconductor (S-Fusion UV Curing Systems Corp.; Fusion Semiconductor Systems Corp.) (Ultraviolet Curing Equipment, Semiconductor Processing Equipment), 7600-T Standish Place, Rockville, MD 20855 (NR) (FAX: 301-340-9351).....301-251-0300

FUSION UV SYSTEMS, INC.

FUSION UV SYSTEMS, INC., 910 Clopper Rd., Gaithersburg, MD 20878
 (100M+).....888-817-6020
 (FAX: 301-527-2661; E-Mail: info@fusionuv.com;
<http://www.fusionuv.com>; Or Call: 301-527-2660)
 (Mfg. All Kinds Of UV Curing Equipment For Coatings, Inks & Adhesives, High-Intensity For Rapid Curing, Cool Operation For Sensitive Substrates, Multiple Spectral Ranges Available, Cures Thick Pigmented Coatings: White, Black, Colors, Product Widths To 6 M (20"), Used In Many Mfg. Industries Including: Automotive, Electronics, Telecommunications, Converting, Printing, Wood Finishing, Metal Decorating, Full Application Lab Support: Process Development, Polymer Chemist On Staff, Technical Service & Support)
 (Ex.)

Fusion Welding (Job Shop: Welding, Aircraft Parts, Ground Support Equipment), 7046-T Snowflake Dr., San Antonio, TX 78238-1249 (NR) (FAX: 210-681-5567).....210-681-5487

Fusion Works Inc. (Welded Metal Bellows), P.O. Box 1865, Ormond Beach, FL 32175 (NR) (FAX: 904-322-2031; E-Mail: info@fusionworks.net; <http://www.fusionworks.net>).....904-322-2621

Fusion & Cutting Technology (Laser Cutting, Marking, Drilling, Etching), 1120-T O'Brien Dr., Menlo Park, CA 94025 (NR) (FAX: 650-328-3796; E-Mail: Sage@laserfusion.com; <http://www.laserfusion.com>).....650-328-8210

Where Glass Seals Metal FUSITE®

FUSITE DIVISION OF EMERSON ELECTRIC CO., 6000-T Fernview Ave., Cincinnati, OH 45212 (NR).....513-731-2020
 (FAX: 513-631-6456; <http://www.fusite.com>;
 TWX: 810-461-2446)

(ISO 9002 Registered; Glass-To-Metal Hermetic Seals, Connectors & Feedthroughs For HVAC Compressors, Liquid Level Indicators & Other Applications Of Extreme Temperatures, Variable Pressure Or Corrosive Environments. Lithium Battery Seals For Military, Commercial & Industrial Users. Custom Formulated Glasses For High Reliability Applications Offer Corrosion Resistance. Visual Level Indicators For High Pressure Or Vacuum Applications, Using Glass-To-Metal Bonding Process. Available For Pressures Up To 15,000 psi. Press Capacities From 10 To 200 Tons, With Drawing Capability Up To 3 1/2 Inches. Specializing In Flapper Valves For Various Compressor Applications)

(S-FSP-Fusite Stamped Products)
 (Ex.) (Pres.) E. Weaver; (Dir., Eng.) D. Bolton; (V.P., Oper.) T. Murphy; (V.P., Sls.) J. Gilligan; (V.P., Fin.) W. Epping; (V.P., Human Res.) R. Barker; (Dir. Of Mktg.) Raymond Jr. Moore

GOLDEN-ANDERSON VALVES

by

Industries Inc.

Leadership in the design and manufacture of automatic valves and controls for municipal and industrial water and wastewater applications.

RODNEY HUNT COMPANY

Leadership in the design and manufacture of cast and fabricated gates, valves and actuation equipment for the control, distribution and treatment of water and wastewater.

...now One Great Resource

Two industry leaders come together to provide the most complete line of products and services for the control and treatment of water and wastewater.

If you want to find out what this could mean for your next project, call us.

SERVING THE WESTERN STATES
LARGEST INVENTORY • CUSTOM WEAVING

• Specializing in the weaving, distribution and fabrication of a comprehensive line of wire cloth. • Custom weaving up to 2.5" wide. • Large inventory of wire cloth available. • Market grades, bolting cloth, strainer grades and micron filter cloth. • Fabrication services such as cutting to size, slitting, circle cutting, blanking and stamping. • (G.M.) Jim Marovich; (Inside Sales Mgr.) Jackie Puga; (Controller) Arlene Joyce

**GDC/Crooks Wire Products Ltd.** Ontario, Canada **1-800-561-5903**

406 Watline Ave., Mississauga, Ontario L4Z 1X2
Fax 905-890-6374 • Tel 905-890-0466

SERVING CANADA
LARGEST SELECTION OF WIRE MESH PRODUCTS

• Manufacturer and distributor of wire cloth. • Largest selection of wire cloth, woven and welded and many alloys. • We offer shearing, slitting and custom forming. • (Pres.) Bill Crooks; (V.P.) Barbara Crooks

**GDC/Estey Wire Cloth** Palisades Park, NY **1-800-524-0039**

134 W. Central Blvd., Palisades Park, NY 07650
Fax 201-944-3307 • Tel 201-944-2828

YOUR LOCAL DISTRIBUTOR IN THE
NORTHEAST AREA

• Specializing in woven and welded wire cloth products, safety wire, spooled wire, perforated and expanded metal • Local deliveries • (Bus. Unit Mgr.) James Sensbach

**GDC/Gerard Daniel** New Rochelle, NY **1-800-232-3332**

1-5 Plain Avenue, New Rochelle, NY 10801
Fax 914-632-1078 • Tel 914-235-2525
Email: gdcintl@aol.com • www.gdc.thomasregister.com

GLOBAL SOURCING & WORLD'S
LARGEST INVENTORY

• Manufacturer of wire cloth screening media; filter fabrics, screen printing fabrics. • (Pres.) N.G. Shultis; (Exec. V.P.) C. Milmo; (V.P. G.M.) R. Milmo; (V.P. Mktg.) S. Pfeffer

**GDC/INA Filtration** Inman, SC **1-800-343-2456**

Fax 864-472-2063 • Tel 864-472-2061

AEROSPACE, WOOD PRODUCTS
& INDUSTRIAL WIRE CLOTH

• Specializing in wire cloth for the aerospace industry and caul screens for the wood products industry. • (G.M.) Dennis Makransky

**GDC/Keystone** Hanover, PA **1-800-233-3017**

150 Factory St., Hanover, PA 17331
Fax 717-637-2044 • Tel 717-637-5901
www.gdc.thomasregister.com

LARGEST DOMESTIC WEAVER OF
INDUSTRIAL WIRE CLOTH

• Manufacturer of industrial woven wire cloth and wire cloth fabrications for filtering air and liquids, containing, straining, guarding, sifting and strengthening. • Double vacuum annealing; ferrous and non-ferrous metals; in meshes from 4 through 100. • Wire diameter .0045 To .032. • Epoxy, paint and galvanized coatings available. • Also offering fine wire drawn and spooled to specs. • (G.M.) A.E. Miele; (S.M.) M.J. Vaccaro

**GDC/Specialty Products** Hanover, PA **1-800-341-4162**

150 Factory St., P.O. Box 521, Hanover, PA 17331-0521
Fax 717-633-7095 • Tel 717-637-2569
www.gdcspecialty.com

WOVEN AND WELDED PRODUCTS
FOR THE EASTERN STATES

• Specializing in precrimped and welded mesh in panels and rolls, aluminum louver screen and bright basic wire. • (Bus. Unit Mgr.) John Frederick

**GDC/Sunset Wire** Fontana, CA **1-888-285-3919**

13055 Jurupa Ave., Fontana, CA 92337-6982
Fax 909-360-8118 • Tel 909-360-8117
www.sunsetwire.com

MANUFACTURER OF SPECIALTY WIRE
SERVING THE U.S.

• Specializing in the manufacture and sale of stainless steel, corrosion resistant and high temperature alloy wire. • (G.M.) Jim Marovich; (Sales Mgr.) John E. Johnson

**GDC/Wire Weavers, Ireland Ltd.** Limerick, Ireland **353-68-31284**

Mountmahon Industrial Estate, Abbeyfeale, Co. Limerick
Fax 353-68-31377 • Tel 353-68-31284

SERVING THE U.K.
& EUROPE

• Specializing in the weaving and manufacturing of fine and ultra fine wire mesh for the filtration and aerospace industries. • Caul screen mesh for OSB and particle board. • (Managing Dir.) Michael Quigley; (Sales Mgr.) Redmond Quigley

Integrated Cooling Technologies

Wet Cooling Technology

**Leading Technologies.
Individual Solutions.**

**Cooling and Environmental Solutions
for the World's
Power & Process Industries**

Mechanical and Natural Draft Cooling Towers

With over 79 years of heat reduction expertise, we provide efficient cooling solutions for your most stringent heat rejection requirements.

Our world-wide experience assures that your tower is optimal, no matter where it is.

Thailand

Product Application

	Natural Draft Cooling Towers	Mechanical Draft Cooling Towers	Hybrid (Wet/Dry) Cooling Systems	Modular Cooling Towers
Power Generation	●	●	●	●
Chemical Industry	●	●	●	●
Mining & Steel		●	●	●
All Industrial Applications				●

Cooling Tower Structures of:

Wood

- Easy-to-Modify
Standardized
Components
- Structural Stability

Fiberglass

- Lightweight and
High Strength
Material Means
Long Life
- Easiest to Inspect
and Maintain
- Chemical Resistant

Concrete

- Long Life
- Low Maintenance

San Diego, California

Plume Abatement Tower in United Kingdom

**Low Noise, Plume Abatement, and Zero Discharge
Options available**

Repair and Parts Services

We know that down time means money... your money. So GEA has established a nation-wide representative network to give you rapid response time for repairs.

To get your tower back up quickly, GEA also maintains a complete inventory of parts. We should have the part you need at your fingertips.

Our staff's many years of experience means that you not only get reliable parts and service, but also good, solid advice.

GKN Sinter Metals

Expect it
...GKN Sinter Metals commitment to total customer satisfaction.

Count on it
...GKN Sinter Metals performance for innovative applications and cost-effective solutions.

Specify it
...GKN Sinter Metals. It is how the world's best companies get what they want. When they need it.

GKN Sinter Metals is the world's largest full-service supplier of precision powder metal parts. From filters, bearings and gears to connecting rods and synchronizer components, our products can be found in engines, transmissions and engineering applications throughout the world.

As the industry's recognized leader, GKN Sinter Metals' boasts a highly skilled workforce led by an unparalleled management team that is experienced in all aspects of the industry.

Our more than 30 facilities are strategically located throughout Europe, North and South America, and South Africa with joint ventures in India and China.

At GKN Sinter Metals we provide our customers with a broad range of P/M products, technologies and services, from consultative engineering and design phase... to product testing... to the most intricate sintered parts.

Our commitment to total customer satisfaction is apparent in everything we do.

We stay at the top of the learning curve in materials and products through ongoing training programs and by transferring best practices throughout our organization.

As the demand for cost-effective, precision-oriented technology increases, we are taking a lead role in R&D—actively developing new applications, processes and materials, while migrating new and existing technologies throughout our company.

Our primary capabilities include:

- Sintered Structural Parts
- Sintered Bearings
- Powder Forged Parts
- Metal Injection Molding (MIM)
- Filter Technologies
- High Performance Plastics

New technologies and applications are always under development at GKN Sinter Metals. For more information about our technologies, and how we can make them work for you, contact us through our web site or at one of our international locations.

DIVERSIFIED MFG., INC.

TWO LOCATIONS:

■ **Houston:**
800-922-4223

■ **Indianapolis:**
800-353-8818

*Laser Services • Wire EDM • Machining • Stamping/Forming
Welding Assembly • Contract Inspection*

G & H Diversified Mfg., Inc. is a contract manufacturer with operations in Houston, Texas, and in Indianapolis, Indiana. In operation since 1958, we have grown from a small tool and die shop into a state-of-the-art manufacturing firm with an exceptional quality reputation.

At **G & H**, we specialize in several areas of service, including:

- Manufacturing engineering
- Laser machining of tubulars and flats
- Wire EDM
- CNC machining
- Stamping and forming (including Multi-Slide)
- Welding and Assembly

G & H is a contract shop for the future with an in-depth understanding of just-in-time programs, quality systems, shop floor controls, and CAD/CAM integration.

G & H is ISO 9002 certified!

Our customers have come to expect a higher degree of service from **G & H** and we recognize that it is our job to continue developing by investing in the best people and equipment available.

For more information, contact one of our Sales Departments:

AIRCRAFT HYDRAULIC COMPONENTS

For Commercial / General
and Military Aircraft

- Hydraulic Actuators
- Master Cylinders
- Hydraulic / Pneumatic Restrictor Valves
- Hydraulic Shuttle Valves
- Hydraulic / Pneumatic Check Valves
- Hydraulic Relief Valves
- Hydraulic Fuses
- Flow Regulators
- Shimmy Dampeners
- Titanium Hydraulic Components
- High Pressure (8000 PSI) Aircraft Components
- Pneumatic Relief Valves
- Vacuum Relief Valves
- Sequence Valves
- Priority Valves
- Hydraulic Manifolds
- Custom Designed Valves

GAS TECH MEETS ALL YOUR GAS DETECTION NEEDS

portable monitors

Gas Tech, Inc. manufactures a broad range of gas detection monitors for
combustible gases, oxygen content and many toxic gases.
Order our complete line of portable and fixed gas detection systems,
parts and calibration equipment directly from Gas Tech at our low direct
Connect to: www.gas tech-inc.com or call us at 1-877-GAS-TECH to
see how Gas Tech meets all your fixed and portable gas detection needs.

(25M+)..... 631-543-6600

(GASSER & SONS, INC.—Continued next column)

A. Piston Compressors and Vacuum Pumps

Oilless, motor-mounted, and separate-drive models. Pressures to 125 psig; up to 11 cfm free air. Vacuums to 28.5" Hg; up to 11 cfm free air.

B. Air Powered Gearmotors

In-line and right-angle models. Up to 5200 lb./in. gear ratios from 10:1 to 60:1 single reduction reducers.

C. Vacuum Generators

Oilless, single- or multi-stage designs in chemical- and corrosion-resistant material. Vacuums to 27" Hg, flow rates from .2 to 158 cfm. Vacuum cups available also.

D. Rocking Piston Compressors and Vacuum Pumps

Oilless, motor-mounted, mini, standard, and twin models. Pressures to 175 psig; up to 5.5 cfm free air. Vacuums to 29" Hg.

E. Oilless Linear Compressors and Vacuum Pumps

Performance ranges from 11 to 244 lpm (.39 to 8.6 cfm), with pressures to 10.5 psig (.72 bar) and vacuum levels to 12.1" Hg (603 mbar).

F. Rotary Vane Compressors and Vacuum Pumps

Oilless or lubricated. Motor-mounted or separate-drive models. Open flows to 55 cfm free air. Pressures to 25 psig, vacuums to 28" Hg. Dual function models available also.

G. Air Motors

Seven basic models from .5 hp to 9.5 hp; choice of five mountings: hub, foot, face, NEMA C-flange, and metric D series interface. Rotation options include clockwise, counter-clockwise, and reversible. Four-vane and eight-vane models available. Non-lubricated series available also.

H. Regenerative Blowers

Oilless, motor-mounted, and separate-drive models. Twin-ended models available. Pressures to 284" H₂O and vacuums to 177" H₂O; 1350 cfm free air. Special models available for soil vapor extraction applications.

I. Diaphragm Compressors and Vacuum Pumps

Oilless, motor-mounted, mini, standard, and twin models. Pressures to 60 psig; up to 3.8 cfm free air. Vacuums to 29" Hg; up to 3.6 cfm free air.

J. Smart Air™ Technology

Concepts and products that marry electronics to pneumatics to achieve performance improvements in pneumatic systems.

A Unit of IDEX Corporation

Worldwide Excellence in Air Technology – The Designer's Air Source

Since its founding in 1921, Gast Manufacturing Inc. has developed into a worldwide leader in the design and manufacture of air-moving products. We offer cost-effective solutions to pneumatic problems for both OEM and end-users. Currently we produce over 100 basic models of quality pneumatic pumps designed and built to meet the changing needs of industry.

Currently, we have sales and technical service centers in 76 countries worldwide, and we maintain technical service offices throughout the U.S., Canada, Europe, and Hong Kong.

Call 1-800-952-4278 for your nearest Gast Sales Representative who can answer questions on pricing, availability, specifications, or special applications. Or, for additional information, call one of our regional offices or our corporate office in Benton Harbor.

(Screw Machine Products, Multiple & Single Spindle; CNC Machining & Turning Centers; Complete Second Operations; Centerless & Cylindrical Grinding; Spherical & Flat Lapping; Electro-Chemical Deburring; Certified Heat Treating & Plating; SFC; JIT Deliveries; Cleanliness Lab; Specializing In Fuel Injection & Engine Components & Sub-Assemblies For Engines)
(Chmn.) R.A. Gunderson; (P.) N.S. Logarakis

COMPANY PROFILE

General Automotive Manufacturing Co.

PRECISION MACHINED COMPONENTS & SUB-ASSEMBLIES

*Concurrent engineering and production for diesel engine
fuel system components, hydraulic applications, and
sub-assemblies for OEM's.*

MACHINING FACILITIES

- Automatic Screw Machines to 3.5"
- CNC Machining & Turning Centers
- Complete Secondary Operations
- Centerless & Cylindrical Grinding
- Certified Heat Treating & Plating
- Spherical & Flat Lapping
- Electro-Chemical Deburring

Lab Facilities for Metallurgical & Cleanliness Testing

CAD / CAM SPC JIT

Call (414) 421-6111 or Fax (414) 421-6192

GENERAL MONITORS

Flame, Combustible or Toxic Gas Detection

When it comes to reliable protection for people, equipment and facilities, General Monitors offers an unparalleled reputation for safety and innovation. The company is known worldwide for its leadership in sensor technologies and high performance instrumentation. No matter what the application—oil/gas, chemical processing, wastewater treatment, pulp/paper production and more—you can count on General Monitors to provide a total solution for superior plant protection.

Exclusive Manufacturers of

LAST-A-FOAM®

**High Density Rigid and Flexible
POLYURETHANE FOAMS**

**Specialists in filling
High-performance Requirements**

We are pioneers in the formulation of high performance **LAST-A-FOAM®** cellular solid polyurethane and polyisocyanurate products. Over the past four decades General Plastics has earned an outstanding reputation by developing unique foam-based technical solutions to difficult problems.

**Rigid and Flexible Foams Available
Widest Density Range Available
Sheets • Blocks • Molded Parts
CNC-Machined Parts • Highest Quality
Large Production Capacity
Technical Assistance**

GPD

General Production Devices has become an international leader in the manufacture of state-of-the-art equipment for printed circuit boards and today's semiconductor devices. We manufacture:

- Ultra-precision, high speed dispensing equipment designed to provide application specific production solutions
- Advanced circuitry material handling equipment: Component Loaders & Unloaders, and Lane Chargers
- Advanced Circuitry aqueous cleaning
- Thru-Hole & SMT component lead forming and tinning
- SMT component testing and packaging systems

For the name, address and phone of the GPD sales representative serving your area, just call, write or E-Mail GPD.

GENICOM Corporation is a global provider of integrated network solutions, multivendor services and printer solutions focusing on the midrange, client/server market. Its Document Solutions company (DSC) designs and markets a wide range of high-performance serial matrix, line matrix, page, and travel industry printers, along with a complementary line of supplies, parts and services. GENICOM's Enterprise Service Solutions company (ESSC) provides comprehensive IT solutions supporting emerging technologies such as Internet security, e-commerce, xDSL, cable modem, voice data and their related equipment. ESSC also delivers traditional support services including consulting, Help Desk, internetworking services and multivendor on-site and off-site product repair. GENICOM is headquartered within metropolitan Washington, D. C. For more information on the company and its portfolio of enterprise printer and service solutions, access the GENICOM home page on the World Wide Web at www.genicom.com.
